New Banking Processes for ACH Payments

Kentucky Interactive is updating the banking processes for ACH payments that are processed for the Commonwealth. Certain businesses and individuals restrict who can debit from their account with the use of an authorization list, commonly known as a "Debit Block". These updates will result in new Originating IDs and may require users to provide the new Originating ID (OID) to their banks for authorization to debit their account.

The current ODFI ID# 9775071990 is being replaced with two new OIDs:

1. ODFI ID #1522077581
2. ODFI ID #9006402001
